## CARDINAL GIBBONS, CATHOLIC CHURCH HEAD DEAD

BALTIMORE, MD., March 24.—James Cardinal Gibbons, archbishop of Baltimore, and primate of the American Catholic hierarchy, died at the arch Episcopal residence here to-day, after a prolonged illness which mainly affected his heart. He was in his 87th year.

The end came peacefully at 11:33 o'clock. Cardinal Gibbons, who had been showing pronounced signs of improvement in health ever since his return home about January 1 last, from Union Mills, Md., where he was taken ill early in December, suffered a relapse Palm Sunday evening.

The sudden change of weather which brought unseasonable high temperatures, had a depressing effect upon him. His fainting spells returned and when he was put to bed, from which it was realized by those closest to him, he probably never again would arise.

Cardinal Gibbons' physicians said repeatedly in the early stages of his illness that he was sound, organically, as could be expected in a person of his years, but that he suffered from the effects of his age and from fatigue that resulted from the prodigious expenditure of his energies in the performance of his duties as senior primate of the Catholic church in this country.

Cardinal Gibbons was born in Baltimore, July 23, 1834. His parents, Thomas and Mary Gibbons, had come to America from Ireland in 1829. They returned to their native land when the future cardinal was two years old.

He entered St. Charles College at Elliott City, Md., and graduated in 1857. He then entered St. Mary's Seminary in Baltimore and was ordained a priest by Archbishop Kendrick June 6, 1861.

In 1872 he was promoted to the see of Richmond, Va., and on Oct. 2, 1877, was made archbishop of Baltimore, gaining with it the title of Primate of the United States, it being the oldest see of the Catholic church in America.

Archbishop Gibbons presided over the Third Plenary Council of Baltimore in 1884 and in 1886 he was created Cardinal by Pope Leo VIII.

## THE TOBACCO MARKETS

Prices of tobacco on the Paris market have remained at practically the same level as has been maintained for the last two weeks. A large amount of the tobacco sold was of an inferior quality, but the bidding was spirited, and nearly all grades brought fair prices. Rejections, receipts and passed baskets have passed almost entirely out of the tobacco market now, and buyers and farmers are anxious to finish up the work of selling the crop as soon as possible.

At the sales held Tuesday at the New Independent Tobacco Warehouse the averages ranged from \$19.12 to \$35.48, the latter being obtained for a crop of 2,965 pounds belonging to D. M. Frederickson.

The Bourbon Tobacco Warehouse Co. sold Wednesday a total of 69,625 pounds of tobacco for an average of \$11.98. Three of the best crop averages of the sale were as follows: Gaitskill & Clayton, 1,125 pounds, average \$21.51; Dodge & Mattox, 2,970 pounds, average \$31.55; Shropshire & Bays, 2,430 pounds, average \$20.10. Wednesday, March 30, will be the last sale on the Paris market.

All organized movements for the reduction of the Burley tobacco crop in the four growing States having failed and seeing many of the producers forced into bankruptcy and others filling the graves of suicides on account of low prices and financial stringency, it is said the farmers will voluntarily reduce their acreage forty to fifty per cent. In the meantime, the movement to form a great marketing organization to sell the surplus in Japan and Europe is under way. In the face of these adverse conditions of the tobacco market the National W. C. T. U. is planning an active anti-tobacco campaign, to begin Sunday, April 3.

## BOURBON CIRCUIT COURT

Hobart Harding, of Nicholas county, was given a sentence of one year in the Frankfort Reformatory on a charge of stealing an automobile. At the same time the automobile was stolen, Harding stole a valuable dog belonging to a farmer in Nicholas county. The machine which belonged to a Bourbon county man, was recovered in Greencastle, Indiana, where Harding had taken it.

A case which for its peculiar ending was declared to have been without precedent in this Court, was threshed out by Judge Stout. R. B. Hutchcraft, of Paris, leased a portion of one of his farms to C. S. Grose and his two sons, to be worked on the shares. When the time for settlement arrived Mr. Hutchcraft presented several claims for damages to his tenants, alleging they had failed to properly raise and harvest the crops, and had allowed their stock to trespass in the fields, causing damage to the extent of \$1,000. Grose and sons filed counter suits for a less amount. The trial of the case occupied the time of the court for an entire day, a large number of witnesses being examined. At the close of the testimony Judge Stout told the jury he was unable to give them any instructions, and for them to retire and do the best they could.

A few moments the jury returned with the following verdict: "We, the jury find nothing for the defendants and nothing for the plaintiff." The question arises, who will have to pay the costs in the case?

In the case of Emil Houk, charged with having stolen a touring car belonging to B. L. Day, insurance man, of Paris, on the night of March 15th. He was found not guilty. Houk drove the machine to Lexington, where, on the following day it collided with a street car.

George Ann Walton, colored, charged with cutting and wounding, was found guilty and given a sentence of six months in jail, and a fine of \$150. She was charged with cutting Mary Macon, in Ruckerville, some time ago.

The case of the Commonwealth vs. Will Hall, charged with grand larceny, was postponed until Saturday morning at ten o'clock.

On account of the absence of Judge Stout, who was called to Frankfort for a conference with Governor Morrow, Judge Denis Dudson occupied the bench Wednesday.

A decree granting a divorce from her husband, Yutaki Minakuchi, non-resident, was handed down yesterday by Judge Stout to Mrs. Yutaki Minakuchi, of Paris.

The entire time of the Court yesterday was taken up with the case of John S. Jones vs. I. C. Haley, of Clintonville. The case, after argument by counsel, was given to the jury. The jury came in late yesterday afternoon, reporting that they could not agree on a verdict, and were held over until this morning.

Reuben Hutchcraft, which arrived at Hoboken, New Jersey, a short time ago, will arrive in Paris either to-night, or to-morrow morning. The body was sent to Camp Knox, near Louisville, which is a distribution station, and from there will be sent to Paris. The body will be accompanied by a special guard of honor.

The arrangements for the funeral have been practically completed, though some small details remain unfinished. Funeral services will be held at the Christian church, at three o'clock, Sunday afternoon, conducted by Rev. W. E. Ellis. At the grave in the Paris Cemetery the exercises will be in charge of Bourbon Post, American Legion, of Paris, assisted by visiting delegations from surrounding cities.

## KENTUCKY DEBATERS WIN FROM CINCINNATI TEAM

The University of Kentucky won the debate against University of Cincinnati, at Cincinnati, Saturday, on the question of whether Congress should limit immigration from each ethnic group to 10 per cent. of the average annual number admitted to the United States from January, 1907, to January 1914. Kentucky took the negative side, but favored selection rather than decrease in numbers admitted.

M. Alperin and Clay Porter spoke for Kentucky, while Charles A. Harrel and J. E. Crawford supported University of Cincinnati.

## CALIFORNIA MEN TO DRILL FOR OIL NEAR PARIS

About seventy years ago prospectors in this section of the Bluegrass who had migrated here from other fields, struck a flow of oil at a depth of seventy-five feet, on the old Hildreth place on the Clintonville pike, now owned and occupied by Gano Hildreth. The wells were never developed, and the strike attained no commercial importance. About twelve years ago two wells were drilled on the farm now owned by Squire Lee Stephenson, two on the Haggard place, and one on the Ed. Sparks farm, the two former showing oil, and the latter gas. These also were allowed to go undeveloped.

With a view to developing and exploiting these lands for oil, a company of California, and capitalized at \$50,000, has secured leases on a large acreage of land in that vicinity, on which they propose to do a great amount of work, sinking wells and giving the territory a thorough work-out. Among the men interested in the company are I. S. Cooper, of Los Angeles, Cal., formerly of Clintonville, C. H. Clay, banker, of Los Angeles, Frank B. Darr, of Los Angeles, banker, who is president of the organization, and other men of finance, who have become interested.

The company has secured leases on the following: Lee Stephenson farm, 400 acres; Charlton Alexander farm, 200 acres; George K. Jones, 315 acres; Ed. Sparks, 690 acres; Mrs. Ed. Turner, 500 acres; Judge Shackleford (Richmond) 700 acres; Letitia, Joseph and Frank Clay, 1,000 acres; J. J. Haggard, 200 acres. A drilling outfit of the latest improved type, costing \$6,000, will be put to work in the field drilling wells between Paris and Clintonville. The stock is all to be held by members of the company, the money to be expended in legitimate drilling and developing operations. None will be offered for sale to the public.

Mr. Cooper, who has been a resident of the Texas and California oil fields since leaving his Bourbon home several years ago, stated to THE NEWS that the company is confident of making a strike in their territory, as the undeveloped wells of many years ago showed the presence of oil around the territory in which they will operate. He said this is not a wildcatting or a stock-flopping scheme, but a legitimate business proposition, in which the Los Angeles financiers had such implicit faith that they propose to use their own money in developing it. He stated further that the men at the head of the Company were of the highest business integrity and financial standing and that they would show the people of Bourbon county how earnest they were in the matter of developing the oil prospects in the territory they have just acquired.

## CORONER'S INQUEST

The jury summoned by Coroner Rudolph Davis, to conduct an inquest in the case of Charles Howard, charged with killing Frank Dumphard, in Claysville, Saturday night, rendered the following verdict:

"We, the jury, find that Frank Dumphard came to his death by a pistol shot inflicted by a pistol in the hands of Charles Howard, in Claysville, on Saturday night, March 19, 1921." The jury was composed of T. H. Rankin, Frank P. Lowry, George W. Redmon, Irving McPheters, D. C. Lisle and J. M. Scott.

The evidence showed that a crap game was in progress in the rear of Howard's barber shop in Claysville, and that Dumphard made repeated requests of Howard for loans in order to continue in the game. These were refused and Dumphard left, vowing he would get it from him somehow. On his return the trouble was renewed, and Howard fired six shots, four taking effect in Dumphard's body, one through the heart, causing his death, and two striking George Green, a bystander, in the leg.

Smith, of Paris, Kentucky, passed said examination and is duly qualified for the office of County Tax Commissioner.

## FRUIT SAFE AGAIN BY NARROW MARK

Though the temperature dropped to a 35-degree minimum in this section, fruit trees in this vicinity have so far escaped damage from frost. The mercury for a considerable period was low enough for the formation of a damaging frost, but constant winds and occasional cloudiness appeared as allies for the tender fruit buds. A few reports were made of very light frosts in low and exposed places, but nowhere was it heavy enough to cause any ill results.

The fact that the fruit crop was not nipped in the bud does not mean that it is safe, however, as the average date of the last killing frost in this vicinity is close around April 11, and killing frosts have been known to occur as late as April 22.

According to H. F. Hillenmeyer, the Lexington nurseryman, who is considered an authority on such matters, there is great danger of a killing frost before April 1. Mr. Hillenmeyer bases his belief on the fact that there has been so much open weather during the late winter months.
